Clean Fuel Program Management

Leading in Environmental Commodity Management

SRECTrade assists zero-emission fleet owners and operators in generating revenue through clean fuel standards across North America.

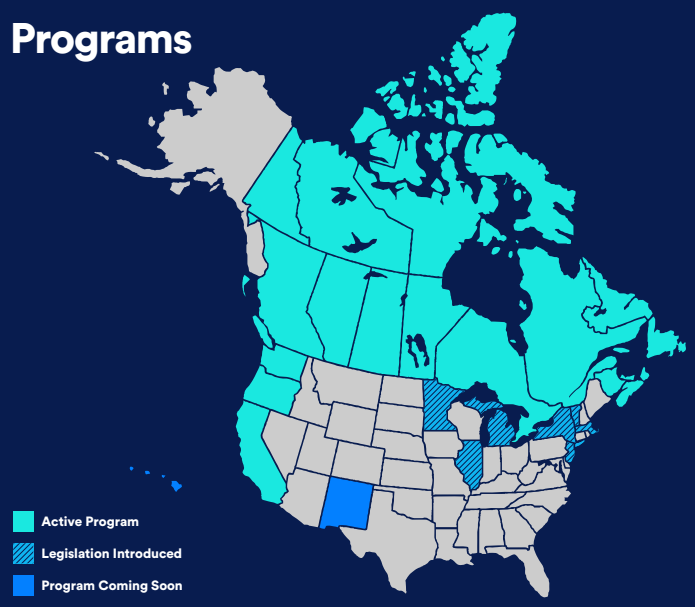

Eligible Activities

- EV Charging Stations, zero-emission commercial and municipal fleets, and electric material handling equipment may generate credits.
- Eligibility varies by program and is subject to change.

Current Programs

- CA, OR, WA, BC, CAN.
- NM program coming in 2027.
- Other states including NY, MN, IL and MI have introduced legislation.

Programs

1 Register

Create account on SRECTrade's online platform and submit your asset information.

2 Report

Upload metering data each quarter to generate credits.

3 Get Paid

SRECTrade monetizes credits on your behalf and remits payment.

SRECTrade
AN XPANSIV COMPANY
