

C-Capsule Code

SD:02: Eligible Removal Types

Version: 1.0

Release Date: January 2023

Document Control

Document ID	CCC-CDR-SD02
Document Name	C-Capsule Code for Carbon Dioxide Removal (CDR) SD:02: Eligible Removal Types
Version	1.0

Author	C-Capsule
Owner	C-Capsule Limited
Authoriser	C-Capsule

Release Date	9 January 2023

1 Introduction

This document details the eligible removal types and descriptions approved for the issuing of C-Capsule certificates under the C-Capsule Code for Carbon Dioxide Removal (CDR). This document is correct at the date of issue, however C-Capsule may alter requirements for the issuing of C-Capsule certificates without notice where necessary for compliance with national legislation or to preserve the integrity for the C-Capsule market.

Removal types and associated descriptions displayed within the Evident Registry shall have precedence over those displayed within this document.

2 Removal Types

2.1 Active Removal Codes

2.1.1 Biomass Carbon Removal and Storage (BiCRS)

Code	Description
RC101	Biochar with soil utilisation
RC102	Biochar with product utilisation
RC103	Biochar with concrete/cement/asphalt utilisation
RC105	Wooden building elements
RC106	Bio-liquid with geological sequestration
RC107	Woody biomass burial

2.1.2 Direct Air Carbon Capture and Storage (DACCS)

Code	Description
RC201	DAC with geological sequestration (depleted oil/gas reservoir)
RC202	DAC with geological sequestration (unmineable coal bed)
RC203	DAC with geological sequestration (saline aquifer)
RC204	DAC with geological sequestration (salt cavern)
RC205	DAC with geological sequestration (flood basalt formation)
RC206	DAC with cement/concrete/asphalt utilisation
RC207	DAC with product utilisation
RC208	DAC with mineralisation

2.1.3 Bioenergy Carbon Capture and Storage (BECCS)

Code	Description
RC301	BECCS with geological sequestration (depleted oil/gas reservoir)
RC302	BECCS with geological sequestration (unmineable coal bed)
RC303	BECCS with geological sequestration (saline aquifer)
RC304	BECCS with geological sequestration (salt cavern)
RC305	BECCS with geological sequestration (flood basalt formation)
RC306	BECCS with cement/concrete/asphalt utilisation
RC307	BECCS with product utilisation
RC308	BECCS with mineralisation

2.1.4 Enhanced Weathering

Code	Description
RC401	Terrestrial enhanced weathering
RC402	Ocean enhanced weathering
