The Green Certificate Company Limited (GCC) Billing Terms & Conditions

Facility Assessment Fee

GCC charges a non-refundable fee, payable in advance, for undertaking a one-time technical and compliance assessment of a facility application and issuing a final written approval or rejection determination to the applicant. The assessment begins only after payment has been received.

The fee remains non-refundable regardless of approval or rejection, withdrawal, incomplete application, or later market exit. The assessment is complete when GCC has issued and communicated its final determination to the applicant and, where approved, recorded and activated the facility in the relevant Registry.

- **Withdrawal before completion:** The application closes, GCC has no further obligation, the fee remains non-refundable, and reapplication requires a new fee.
- **No response to GCC's information request within [90 days]:** The application expires, GCC has no further obligation to assess the facility, the fee remains non-refundable, and reapplication requires a new fee.
- **Approval validity:** An approved determination is valid for 5 years, subject to applicable registration requirements. This is a validity period only and does not include ongoing monitoring, audits, support or other stand-ready services under the initial Facility Assessment Fee.
- Certificate issuance, amendments, transfers, additional reviews, audits, reassessments, and renewals are not included in the Facility Assessment Fee and are charged separately when required.

I-REC(E) Facility Assessment Fee (payable in advance):

Capacity	EUR	USD
≥3MW	1000.00	1170.00
≥1MW–<3MW	500.00	588.50
<1MW	100.00	117.70

I-REC(E) Renewal Assessment Fee

The Renewal Assessment Fee is a separate service charged at 40% of the current initial fee, reflecting the reduced scope. The renewal assessment is complete when GCC issues the final determination and, if approved, updates the Registry.

Capacity	EUR	USD
≥3MW	400.00	468.00
≥1MW–<3MW	200.00	234.00
<1MW	40.00	47.08

Registration or renewals of device groups submitted after 1 September 2023 are no longer supported and may be submitted as individual registrations based on capacity.

I-REC(E) Other Fees:

- Issuance fee (per MWh): EUR 0.025 / USD 0.03
- Issuance fee, self-consumption (per MWh): EUR 0.035 / USD 0.05
- Facility Transfer Assessment fee: same as the applicable Facility Assessment fee
- If a Data Verifier is appointed, issuance fees follow a separate tariff

Invoicing: The default currency is EUR; USD invoices are available on client request.

I-TRACK(G) CENTRAL ISSUER FEES (REGISTRANT ACCOUNTS):

Registrant application fee: 0.00 EUR

Production Facility Assessment Fee: 1,000.00 EUR

An approved determination is valid for 5 years, subject to applicable registration requirements. This is a validity period only and does not include ongoing monitoring, audits, support or other stand-ready services under the initial Facility Assessment Fee.

Issuance fee (per MMBtu): 0.02 EUR

Issuance fee for self-consumption (per MMBtu): 0.035 EUR

Where an Assurance Service Provider (ASP) is appointed, issuance fees will be subject to a separate tariff. Invoices issued by Green Certificate Company (GCC).
